

Door and window system

MB-70

The Aluprof **MB-70** is a high performance and fully integrated window and door system. Due to the specially designed polyamide break and extruded gaskets that are incorporated into the aluminum profile it offers excellent thermal insulation performance with the U_f rate from $1,0 \text{ W}/(\text{m}^2\text{K})$ and reduced noise properties. The range perfectly suites with Aluprof 's curtain walling and framing products and is appropriate for installation in low and high rise buildings for new buildings and refurbishment projects.

▪ *Flexibility of design*

▪ *Thermal insulation: U_f from $1,0 \text{ W}/(\text{m}^2\text{K})$*

**RECOMMENDED
FOR ENERGY-EFFICIENT
CONSTRUCTIONS**

MB-70 / MB-70 HI

Door – cross-section MB-70 HI

Window – cross-section MB-70 HI

The basic range of profiles allows the manufacturing of windows that open inwards and outwards. Thanks to its construction, it allows the use of many types of turn, tilt, turn-and-tilt and tilt-and-slide fittings as well as folding constructions. As regards doors, we have at our disposal the conventional single- or double-leaf doors as well as doors with the so-called safe doorstop. The system is also used for making bigger showcase structures using reinforcing profiles when required. It is also the basis for a number of interesting individual solutions.

MB-70US / MB-70US HI

Opening window – cross-section

Opening window and fixed window – cross-section

The invisible window sash variety. It enables an effect of indifferent look of series of neighboring combination of fixed and opening windows from the outside of the building. It gives an impression of light and neat look since low width of frames seen from the outside. Available in both regular and HI variety with enhanced thermal insulation.

WINDOW DIAGRAMS	SECTION A OR B	U _w value W/(m ² K)			
		Glass pane with Chromatech Ultra frame			
		Double-chamber		Single-chamber	
		U _g =0,5	U _g =0,7	U _g =1,0	
	MB-70HI	 K518101X	0,8	1,0	1,2
		 K518101X + K518111X	1,0	1,1	1,3
		 K518101X + K518112X	1,0	1,1	1,3
		 K518102X + K518112X	1,0	1,1	1,3

MB-70SG

Opening window – cross-section

Active window
in a curtain wall – cross-section

The variety of system that enables to make window with sash invisible from the outer space. It resembles regular concealed sash construction but since its frame features 47 mm width it is therefore narrower than MB-70US and offers slimmer and lighter look.

MB-70 INDUSTRIAL / MB-70 INDUSTRIAL HI

Fixed window – cross-section

Opening window – cross-section

Whether for renovating old steel windows or giving a stylish steel look to newbuild, the MB-70 Industrial enables to keep with the original style, providing all the benefits of modern aluminum technology. Combining attractive design options with long term reliability, the system also features enhanced thermal insulation properties to ensure energy conservation.

MB-70 Casement

MB-70 Pivot

MB-70RC4

MB-70CW / MB-70CW HI

The MB-70 system can be used for fabrication of the outward openable windows MB-70 Casement / MB-70HI Casement, pivot windows MB-70 Pivot, burglar proof windows including a special version of the MB-70 RC4 in class RC4, and window façade MB-70CW / MB-70CW HI. For more information, please refer to our publications for architects or contact our technical consultants.

FEATURES AND BENEFITS

- windows available as fixed or open in, tilt and turn, tilt and slide
- 1 or 2 leaf doors open in or open out
- safety locking
- steel look like industrial options
- large size door constructions available
- hidden sash option
- secure windows and door options, providing burglar resistance
- multitude of finish options
- dual color options
- glazing up to 60 mm
- multi-point locking
- Eurogroove that broadens the choice of hardware available
- suites with other Aluprof's MB systems allowing total design flexibility and project solutions
- compliance with CE marking requirements
